

# ENVIRONMENTAL CERTIFICATE CO2 SAVING

On average each fully grown tree absorbs approximately 24 kgs of CO2 per year. To compensate 1 tonne of CO2, 42 trees are needed (source : [www.encon.be](http://www.encon.be))

*(\*) Based on "Life Cycle Assessment of Newly Manufactured and Reconditioned Industrial Packaging" (2015) by Ernst & Young on behalf of Reusable Industrial Packaging Association, USA.*
